All DIDMU IC Spectrations Simple.

Decorations Simple.

The decorations were quite simple, room made a most becoming back-ground for the gay gowns of the women; and while the rooms were well filled they were not crowded enough to make dancing uncomfort-able.

At midnight a delicious supper was served with comfort and dispatch, Mme. da Gama were among the dip-with the guests seated at small lomats at the ball and other notables tables; and to one who has sampled among the guests were Senator and many times the usual charity ball Mrs. J. The medical fraternity, as a rule, ecognize that 25 per cent of the city copie of the present day find life a The medical fraternity, as a rule, recognize that 25 per cent of the city people of the present day find life a burden and have little real nappiness. Ninety per cent of this nervous debility is caused from stomach trouble. The hustle and worry incident to city life is a strain that tells on the average man and woman, bringing with it nervous debility that in time becomes chronic. Tired, worn-out, run-down, half-sick men and women are numerous in all large cities. They have uncertain appetites, poor digestion, and little ambition. They suffer from in digestion, dyspepsia, coativeness, timidity, have no initiative, and not enough good, rich blood in their veins to make them capable or self-reliant. Their nervous state is such that they imagine themselves afficted with various diseases at different times, when, in fact, their whole trouble is nothing but the symptoms from a deranged stomach, produced by the life they lead.

Daily local people are coming forward with signed testimonials relative to the great benefit they have received through the use of Plant Juice. One of the most recent is that of Mrs Edwin T. Atkinson, of No. 422 Fourth street N. E., who is well known socially in this city. She tells how her husband was relieved of a bad case of stomach trouble by Plant Juice, as follows:

"My husband has suffered for years with stomach trouble and his food fermented and formed gas, which caused him constant misery, especially after eating. The gas pressed against his heart and he thought he had heart trouble; he was censtipated, his liver was affected, which made him very dizzy at times, and he felt weak and completely run down. He had tried many different, medicines, but nothing gave him any relief unty he started to take your Plant Juice. The first few does helped him so much that he continued to take it and now is feeling fine, sleeps well, and is able to eat anything and digest it. He is certainly grateful for what Plant Juice has done for him."
